Pro Shop Millwork & Design
63085 NE 18th, Ste. 1
Bend, OR 97701

To Whom It May Concern:

It gives me great pleasure to provide a letter of reference for Pro Shop Millwork & Design. Exceptional workmanship, management and coordination deserve to be recognized. Pro Shop Millwork & Design built and installed custom lockers, built-in casework & fixtures, moldings, bars and counters on our recently completed \$ 21M / 55,000 sq. ft., Clubhouse Project.

This project was a fast track and complex building with several areas being completed in sequential format. From the beginning, Pro Shop was on top of their game with early shop drawing and stain sample submittals to producing actual locker and cabinet door mock-ups for on site review with our Architect who visited the site every two weeks. Pro Shop was unparalleled in meeting our schedule deadlines and level of quality. They were happy to conduct tours of their facility in order for us to review progress and the millwork building processes. I feel fortunate to have worked with them on such a high profile project.

I continue to use Pro Shop for ongoing changes and modifications to some areas of the Clubhouse and look forward to using them on several upcoming projects we will have. Their quality and workmanship is unmatched and their level of expertise in shop drawing preparation and management is without question. Any future work with Pro Shop Millwork & Design is assured success.

Sincerely,

A handwritten signature in cursive script that reads "Dan Hopper".
